MEMORANDUM FOR: Executive Director

VIA: Deputy Director for Operations
Deputy Director for Science and Technology

FROM: Harry E. Fitzwater
Deputy Director for Administration

SUBJECT: [REDACTED] 25X1
Interim Plan for Office of Security Takeover

1. The Office of Security has been charged with the immediate takeover of the management of [REDACTED] Program. Since this development occurred somewhat suddenly and quickly, it is natural that there are certain budgetary and general resource shortfalls in evidence. This memorandum addresses certain of these problem areas and attempts by the concurrences and approval being sought to ease the difficulties of transition in [REDACTED] management. 25X1 25X1

2. Since the recent day of decision, the Office of Security's Technical Security Division (TSD) has been working toward a full takeover of the overall management [REDACTED] Program. Already it has been learned that there are many organizations and persons with vested interests in the program, along with many outstanding issues to be resolved. The recommendations which follow address the principal issues. 25X1

3. Need for TDY Assistance: The TSD will form a staff to handle this program until dedicated slots and funding become available in FY 1986. The Chief of Engineering and Planning for TSD will serve as the internal program monitor, at least until the transition is completed and functioning smoothly. Success for the program will require the assignment and services of certain personnel now located in other components.

° Recommendation: It is recommended that the following assignments and arrangements be adopted to assist the TSD:

--Full Time

- Program Manager 25X1

--Full Time

Assistant Program
Manager

25X1 25X1

SECRET

--Full Time One Architect from DDA/OL
 --Part Time DD/S&T Representative
 --Part Time Communications Officer/COTR
 --Part Time [] - TSD/EPB
 --Part Time TSD Secretarial Support

25X1

4. Need For Mid-Level Working Group Assistance: For an indefinite period of time, TSD will need a mid-level informal organization to meet periodically to facilitate planning and the overall implementation of the program by the Chief of TSD..

° Recommendation: It is recommended that the following membership be authorized for a mid-level informal organization to be known as [] Advisory Working Group:

25X1

--DDO Representative
 --DDO/SE Representative
 [] Program Staff
 --Comptroller Representative
 --C/FFG/DDA []
 --C/TSD

25X1

25X1

5. Need for Senior-Level Oversight: For an indefinite period of time, [] Program should be reviewed, at least quarterly, by senior Agency representatives who can measure progress against the various equities of DDO and DDS&T components.

25X1

° Recommendation: It is recommended that the following membership be authorized for a senior-level organization to be known as [] Oversight Panel:

25X1

--Senior DDA Representative
 --Senior DDS&T Representative
 --Senior DDO Representative
 --Senior Comptroller Representative

6. It is obvious that funding for [] Program will be needed by FY 1985 if an expansion of this effort is expected beyond that currently programmed. It is hoped that the presence of Comptroller representatives on both [] Advisory Working Group and [] Oversight Panel will facilitate such budgetary relief.

Executive Director

NOTE FOR: DDA

Harry,

I applaud the decision to place this task in Security's hands. If they don't have the capability we should do what is required to establish it - including borrowing competent people from elsewhere.

I am very uncomfortable with the notion that SSCI can block a security-related effort in the Bloc with a budgetary restriction. Are we not doing something we should be doing because of this restriction? When will we be prepared to tell Congress we need to move ahead?

Is there any particular reason why we shouldn't move now to put Security in charge of a working group (maybe constituted slightly differently than is suggested here) and have a high level oversight group which would review progress and issues periodically as, I gather, Evan suggested? The problem is certainly important enough in my view to merit some technically savvy review as we go along.

NOTE FOR: DDA

Harry:

I detect a little confusion on the issue [redacted] It's my understanding that the Office of Security has the lead on this item. I would appreciate it if you would have your folks get together with the DDO and the S&T and bring me a coordinated picture of where we are and what issues need resolution— Probably by the end of August so that we are well ahead of the budget hearings.
